PROFILE

Business Information Systems graduate with First Class Honours from Westminster and over two years of commercial experience across business analysis, data analytics, and digital marketing. Currently working as a Business Analyst at Zenith IT Solutions delivering web development, Azure cloud migration, and AI automation projects for multiple clients. GA4 certified, Power BI certified, proficient in SQL and Advanced Excel, and experienced in requirements gathering, stakeholder management, and Agile delivery.

WORK EXPERIENCE

Business Analyst (Full-time) | Zenith IT Solutions Ltd | London, UK Feb 2025 - Present

- Sole BA for a startup delivering web and mobile development, Azure cloud migrations, and AI automation, translating complex client requirements from 5+ clients into functional specifications and reducing miscommunication by 40%
- Conducted process analysis across client engagements, eliminating manual workflows that reduced operational overhead by 30% and improved delivery timelines by 25%
- Supported Azure cloud migration projects by documenting infrastructure requirements and coordinating between technical and business stakeholder teams throughout delivery
- Produced 15+ business cases and stakeholder reports supporting founder decision-making, and introduced structured requirements templates and UAT processes adopted across all client engagements

Marketing Intern (Part-time) | Microintern | London, UK Aug 2025 - Present

- Managed campaign analytics for 4 concurrent client campaigns using GA4 and Excel, identified a 35% engagement decline through funnel analysis, and delivered a recommendation that drove a 15% improvement above targets
- Built and maintained Power BI dashboards and weekly performance reports, and ran A/B testing pipelines that optimised campaign performance across all active accounts
- Designed the team's first structured data tracker from scratch, standardising data collection and improving reporting efficiency by 40%

Social Media Strategist | Pulse (Sri Lanka's largest entertainment platform) | Colombo, Sri Lanka Sep 2022 - May 2023

- Managed content, audience analytics and performance tracking across TikTok, Instagram and Facebook for a 94,700+ follower platform, producing content that reached 71,000 individual views
- Managed commercial sponsored content partnerships with external brands, ensuring all deliverables met agreed standards and were delivered on time

Business Analyst Intern | Creo360 (Valsoft Corporation) | Mississauga, Canada (Remote) Nov 2022 - Jul 2023

- Used SQL and Excel to analyse customer behaviour and product adoption data across 5 client accounts, translating findings into commercial recommendations that informed product roadmap and retention strategy
- Facilitated stakeholder workshops, produced functional specifications and process maps, and collaborated with technical teams through Agile Scrum delivery using Jira and Confluence
